Integration of advanced materials and designs...

Safety features for silent drive and e-vehicles.

Energy production and transference systems...

High altitude launch platforms for extra terrestrial applications.

Undersea and inner solar system interlinking design pods for habitation.

Advanced electromagnetic robotics parts and systems.

Stability designs for modern dirigible systems and research balloon stability systems for earth and more specific attention to Jupiter's high atmosphere for harvesting top layer gasses.

Electrolips LLC Berkeley
Brings forward advancements in the sectors of science , industry , manufacturing processes , while focus lies in the incorporation of new smart designs, utilizing piezoelectric systems and 3rd Dimension liquid circuitry for power manufacturing , transference and conditioning. The systems are designed to offer new industry standards for green power and healthy oceans and skies. The incorporation of advanced magnetic arrays and designs incorporating also the forces of gravity and other ambient circumstances as means of acquiring energy needed to power most advancement in devices vehicles , power production methods and manipulation of energies needed.

The self propulsion washer machines , dryers , mobile heaters , fans , cyclotrons , centrifuge , power generators utilize advanced electro magnetic and magnetic forces.

The crafts I design brings forward advanced aerodynamics concepts and deliver entire new architypes designs and possibilities to a wide range of persons and personalities while opening vertices of money flow and avenues

for new innovative thinking on a global level

We promise to deliver products from advanced weaponry and aeronautics to home appliances, as said before most deriving power from their own working mechanics or ambient circumstances.

The energy situations could bring profiteering in the hundreds of billions too trillions of euros/dollars/francs/ pounds or the like , per year when payment plans , lines of credit, manufacturing payments , logistics and sales are incorporated into the ideal methodology of the designers of this plan, and in so , offer conglomerate growth potential to investors , stock holders and potential partners.

Creating new industry architypes for global commerce..

Participating in green eco friendly solutions for a healthier planet ..

And delivering advanced weapons systems when needed..

Why Invest in Electrolips LLC?
Patent-backed innovation with first-mover advantage in an evolving health-tech market.
Eco-friendly, solar-powered design reduces reliance on fossil-fuel energy.
Multi-industry revenue potential: hospitals, food processing, hospitality, transit, offices.
Strong IP position with WIPO recommendation & European patent filings.

- Practical innovations in the following industries:
- UVC STERILIZATION EQUIPMENT.
- SAFETY EQUIPMENT FOR SILENT VEHICLES AND E VEHICLES
- HIGH SPEED ACROBATIC DIRIGIBLE SYSTEMS.
- CELL SHAPES FOR STABILITY AERONAUTICS.
- ADVANCED AERONAUTICS FOR MODERN DIRIGIBLE AIRSHIPS.
- HIGH ALTITUDE dirigible systems for CASINOS -
- LAUNCH PLATFORMS - MILITARY INSTALATIONS
- SELF PROPULSION POWER GENERATION EQUIPMENT.
- ROBOTICS PARTS AND SYSTEMS.
- ENVIRONMENTAL CLEANUP EQUIPMENT.
- SURFACE WAVE INFLUX STABILIZATION SYSTEMS. [S.W.I.S.S.]

- PIEZOELECTRIC PLASMA GELS/FLUIDS
- PIEZOELECTRIC FLUID/GEL CIRCUITRY SYSTEM [zero power loss].
    - ~laws of transfer, conditioning and harnessing free electrons,
    - ~parts and housings design surface and submerged.
    - ~additives [doping agents]
    - ~bio-organic emulation in robotics.
- CONSTRUCTION WALL SYSTEMS.
- BAMBOO CONSTRUCTION PRODUCTS.
- ANALOG LOW VOLTAGE CAROUSELS.

and much much more.....
